SOFTWARE RELEASE NOTES

Product: IntelliLogger Firmware, Version 1.23.1.22

Release Date: April 5, 2017

FIRMWARE COMPATIBITLITY:

This firmware release is compatible with HyperWare-II versions containing '**23**' as the second digit in the HyperWare-II version number.

Note: It is always recommended to update IntelliLogger firmware and HyperWare-II to the latest version if possible.

MODIFICATIONS CONTAINED IN THIS CODE SET:

-Modifications for further reduction in power consumption when a logger is configured in low-power mode.

-Modification of the HTTP server to better deal with bursts of page requests from some browsers, to avoid loss of network connectivity.

Modification of the FTP server to better deal with loss of network connectivity seen in some systems using a cellular to Ethernet modem.

Modification to debug logging to better identify specific cause of TCP/IP communication errors.
